Senior Software Engineer with 3+ years of expertise in frontend development, specializing in React ecosystem and financial sector web applications. Proven track record in leading development teams, architecting scalable B2B solutions, and optimizing application performance. Demonstrated success in reducing application load times from minutes to milliseconds and implementing efficient client onboarding processes.

TECHNICAL EXPERTISE

Frontend Development (3+ years)

- Core Technologies: React (v16+), Redux Toolkit, RTK Query, TypeScript
- UI Frameworks: Material-UI, Bootstrap, Responsive Design
- State Management: Redux Toolkit, Context API, RTK Query
- Form Handling: Formik, Yup, Joi

Development & Tools

- Version Control: Git, Branch Management, Code Review
- Build & Deploy: CI/CD Pipelines, Nginx Configuration
- Architecture: Microservices, Component Design
- Testing: Unit Testing, Integration Testing (70-80% coverage)

DOMAIN EXPERTISE

- Investment Platform Development
- Wealth Management Solutions
- Client Customization Frameworks
- Multi-tenant Architecture

CERTIFICATIONS

- HTML, CSS, JavaScript Certification
- React Development Course Completion
- Material-UI Advanced Implementation
- Frontend Development Best Practices

EDUCATION

B. Tech (Computer Science)

Sine International Institute of Technology, Jaipur
First Division (74%) | 09/2017 – 10/2021

PROFESSIONAL DEVELOPMENT

Amazon Unicorn Gym Participant

- Attended hackathon and training program
- Created React implementation documentation
- Participated in technical workshops and webinars

PROFESSIONAL EXPERIENCE

Senior Software Engineer

04/2023 – Present

- Lead and mentor a frontend team of 3 developers
- Reduced dashboard load time from 5 minutes to milliseconds for 1500+ user datasets
- Successfully delivered customized solutions to 100+ clients
- Reduced client onboarding time from 4 weeks to 1-5 days
- Currently managing 15+ new client onboarding projects
- Maintained consistent code coverage of 70-80% across projects

Associate Software Engineer

06/2022 – 03/2023

- Developed reusable UI components for enhanced efficiency
- Integrated complex REST APIs with robust state management
- Optimized frontend performance across multiple projects
- Contributed to custom NPM package development

Trainee Software Engineer

02/2022 – 05/2022

- Completed intensive frontend development training
- Implemented chatbot features for customer support
- Gained hands-on experience with React ecosystem

NOTABLE PROJECTS

Investment & Wealth Management Platform

React, Redux Toolkit, Material-UI, TypeScript

- Architected scalable B2B solutions for multiple client deployments
- Developed custom data handling for 1500+ user datasets
- Created multi-server architecture for improved onboarding
- Implemented efficient state management and caching

Custom NPM Package Development

to-words-by-shubham-setia

- Enhanced number-to-words conversion for financial applications
- Implemented accurate decimal number handling
- Developed backward compatibility with existing packages
- Extended support for financial number formatting
